Just recently I spent a week in hospital, with an infection in my leg. The doctors were not quite sure how it got there, but were agreed in their diagnosis: cellulitis. In lay man's terms, the cells normally take in the bits they need to function and keep the body healthy and spit out the waste. Having cellulitis, caused the cells to stop spitting out the rubbish, hence the infection. Needles, drugs, ointment, syringes, tubes, wires and tests were all part of the plan for recovery. My pulse and blood pressure were taken at regular intervals and it was during this time I was reminded what an amazing organ the heart is, as I could hear it clearly pumping away regularly and continuously, day and night. The Bible speaks about our spiritual heart being deceitful above all things and what hope have we then? Our only hope is in God. He promised to give to believers a new heart. He said he would remove from us our hearts of stone and give us a heart of faith. 'If we confess our sins, He is faithful and just and will forgive us our sins and purify us from all unrighteousness.' 1 John 1:9
