KIDSMATTER

Children with anxiety difficulties tend to lack confidence in their abilities and feel overwhelmed easily. They need to learn how to cope with worries and build confidence. Children with these difficulties benefit from parents and carers providing positive support and teaching them the emotional and thinking skills that can help them manage their worries.

A little boy went over to a pastor's house, where the pastor was doing some carpentry in his garage. The boy simply stood there and watched him for quite a long time. The pastor wondered why this boy was watching him and said, "Son, are you trying to pick up some pointers on how to build something?" "No", said the boy. I am just waiting to hear what a pastor says when he hits his thumb with a hammer."

Often, we discover what people are really like, by what comes out of their mouths. A tomato plant bears tomatoes, a grape vine bears grapes and so a person will be known by what they produce (say, think & act).

What sort of fruit are you producing? Instead of love, is there hatred, bitterness, or even prejudice in your life? Instead of joy, is there constant gloom? Instead of peace, is there turmoil? Instead of gentleness, is there a short temper? Instead of faith, is there endless worry? Instead of meekness, is there pride and arrogance? Instead of self-control, are you out of control?

Stop and do a self-audit, do you like what you see? If not then ask God to help you to make positive changes.

Inspirations :

- If you do not go after what you want, you will never get it!
- If you don't ask, you will never have it
- If you don't step forward, you'll forever be in the same place!
- The cave you fear to enter will have to treasure you seek!
