KIDSMATTER

- Skills and qualities that help children cope with life's ups and downs
- Trust - that the world is safe and that there are caring people to help them.
 - Belief - in their ability to do things for themselves and achieve their goals.
 - Feeling good - about themselves and feeling valued for who they are by their parents and carers.
 - Optimism - that things generally turn out well.
 - Regulation - Ability to manage their feelings, thoughts and behaviours.

Children develop these skills and qualities and learn to keep a balance over time, initially through their experiences in coping with small stresses with help from supportive adults. When bigger stresses come along, even though at first they might feel quite distressed, children can draw on what they have learned about helping themselves to cope and feel better. Looking to others for support continues to be an effective way of coping.

The Humming Bird

The humming bird is a wonderful example of God's amazing design.

The Bible says, "... ever since the world was created, people have seen the earth and sky. Through everything God made, they can clearly see His invisible qualities - His eternal power and divine nature. So they have no excuse for not knowing God" (Rom 1:20 NLT) When we consider the humming bird we are forced to admit that we have an awesome God. This little bird extracts nectar from up to 2000 flowers every day. It can flap its wings up to 200 flaps per minute, breathe 250 times per minute and its heart can get up to 1200bpm!

In assembly we watched a video of the birds unique tongue design which is like a flexible micropump! Our God is an awesome God!

You can find the video at www.creation.com/hummingbird-video
