EBOLA OR SIN, WHICH IS WORST??

A research centre asked people in forty four countries earlier this year, "What's the greatest threat to the world?" Here are the top responses.

- Nuclear weapons 23%
- Inequalities 19%
- Religious & ethnic hatred 18%
- Pollution & environmental damage 14%
- Disease 12%

There was a time in the past, about 2350 BC. when a "plague" led to the destruction of most of mankind. I am referring to sin. God looked on the earth and saw man had corrupted his way. Only one family survived Noah's Flood. Afterwards God said,

"I will never again curse the ground for man's sake, although the imagination of man's heart is evil from his youth; nor will I again destroy every living thing as I have done."

Nearly all the problems in the survey above would be solved if people lived out the *Golden Rule*. Do unto others as we would wish them to do unto us. **LETS DO IT!** DL
