Showing other people respect is a critical part of maintaining relationships. Learning to respect people's efforts, abilities, opinions, and quirks will make for a happy life. Here are several things that can help us all achieve that:

1. Show gratitude: thank people for their help and support on a regular basis
2. Complement others on their achievements: when others are successful, celebrate their ability and praise their efforts.
3. Be sincere: while it is important to thank others, don't do it for the sake of something to say. Be genuine and express it with meaning.
4. Follow through: if you commit to something, then it's respectful to those involved to follow it through. Be on time, be prepared and be enthusiastic.

REMEMBER THE GOLDEN RULE!

"Do to others as you would wish them to do to you"
